 Cloud & DevOps 9 technologies	 AWS	 Google Cloud	 DigitalOcean	 Cloudflare	 Docker	 Kubernetes	 Nginx	 GitHub Actions	 Linux
 Design & tools 5 technologies	 Figma	 Git	 Jira	 Postman	 Google Maps				

PAST WORK

Multi-country taxi booking platform

Multi-language and multi-currency, used by thousands of drivers, with live dispatch, tracking, wallets and payouts.

Our mission: turn ideas into working software that has a measurable impact on our clients' business. Idea to Impact.

2. Meet the Team

Every project is run by people, not a ticket queue. Our 30+ specialists are developers, designers, QA engineers and project managers, all employed in-house.

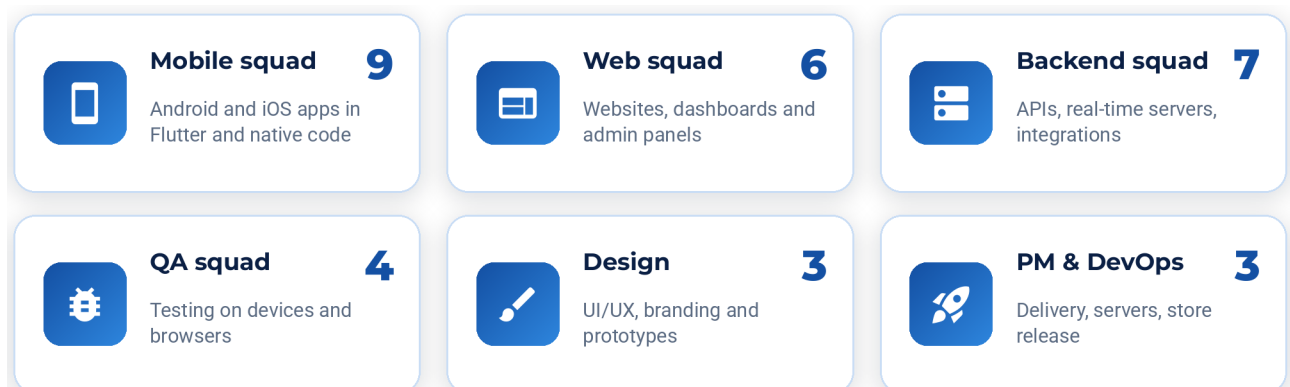

Subekchaa Sah

Founder & CEO

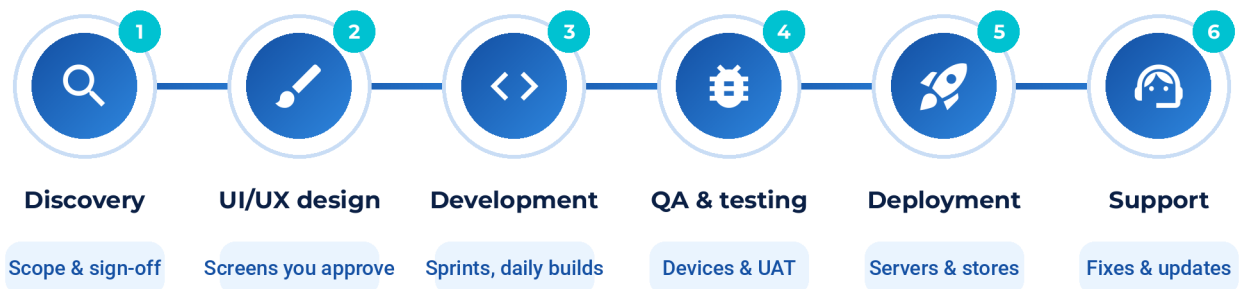

How our team is organised

Projects are staffed from six squads that work at the same time, so design, apps, backend and testing move in parallel.

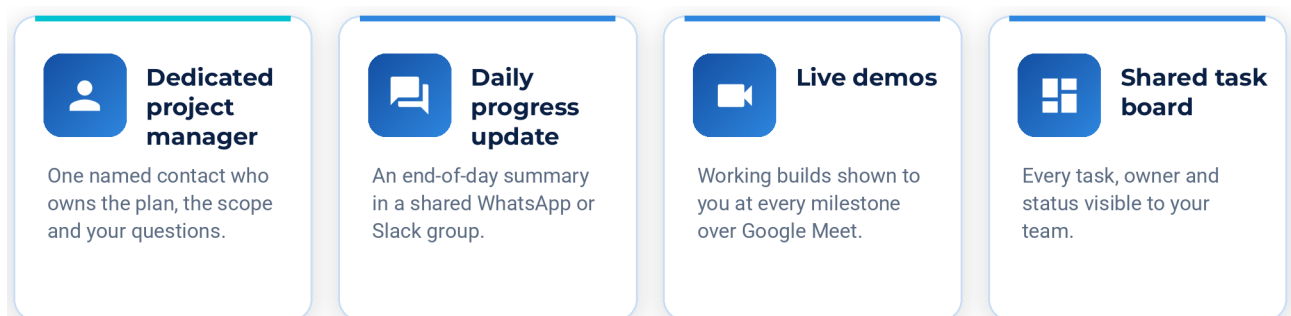

3. How We Work

- **Discovery.** We confirm requirements and business rules, and freeze the scope with your sign-off.
- **UI/UX design.** Screens for every app in your brand colours and logo. You approve them before they are coded.
- **Development.** Squads build apps, panels and backend in parallel, in short sprints with daily builds.
- **QA & testing.** Testing on real Android and iOS devices and major browsers, then your acceptance testing.
- **Deployment.** Servers go live, apps are submitted to both stores, and we hand everything over.
- **Support.** Free bug fixing after launch, then optional maintenance plans.

Communication and reporting

Quality assurance

Every feature passes five checks before it reaches you. Bugs are logged on the shared board with steps to reproduce, and each fix is re-tested.

4. Why Choose Us

One team, every layer

Design, mobile, web, backend and QA under one roof: 30+ in-house specialists.

50 apps live

Published on the App Store and Google Play for clients across food, retail, education and travel.

Fast, honest delivery

Parallel squads, a frozen scope and daily visibility keep dates realistic.

You own everything

Full source code, accounts and IP pass to you on final payment.

Built for Nepal

eSewa, Khalti, Fonepay QR, local SMS and cash on delivery, from day one.

Support after launch

Free bug fixing after go-live and optional maintenance plans.

You get one accountable team for design, apps, panels, servers and the store release. No subcontractors and no hand-offs between agencies.

5. Portfolio

A selection of the 50 apps we have designed, built and published for our clients. Many are full platforms: a customer app plus partner, store or rider apps that work together on one backend.

Food & delivery

9 apps, including Hungry Nepal, Hungry Nepal Partner, Hungry Nepal Rider.

E-commerce & marketplaces

19 apps, including Zipa, Zipa Partner, Zipa Drive.

Education

9 apps, including MKS Education, MKS GRE, MKS IELTS.

Travel & booking

2 apps, including Mero Ticket, Bookezzy.

Business, finance & logistics

7 apps, including Saral Khata, Surugara, Lagaani Store.

Health, media & social

4 apps, including Callexa, Mero Aspatal, GistFeed.

Featured projects

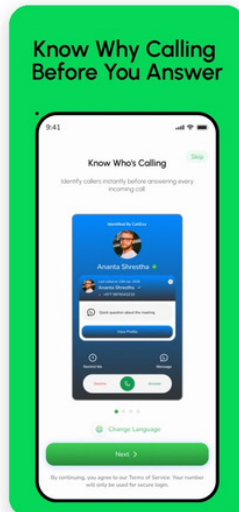

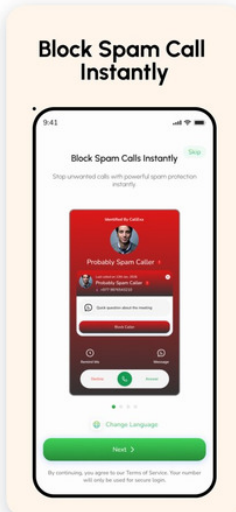

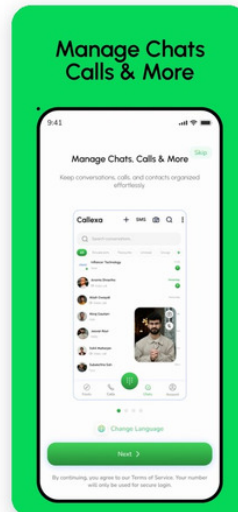

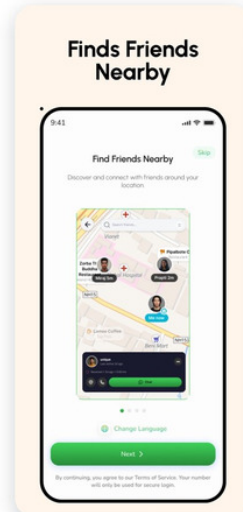

01 Callexa

SOCIAL CALLING

iOS and Android app

A calling and social app where the caller adds a reason before the phone rings, so the person answering knows why. Calls, chat and a social feed in one place.

- Call reason shown before you answer
- One-to-one and group chat
- Audio and video calls
- Posts, stories, short videos and blood donation requests

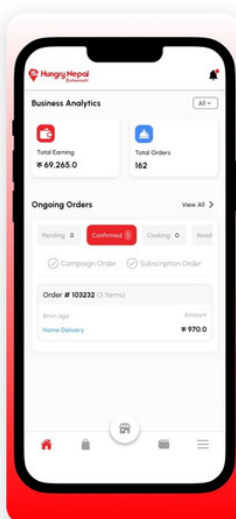

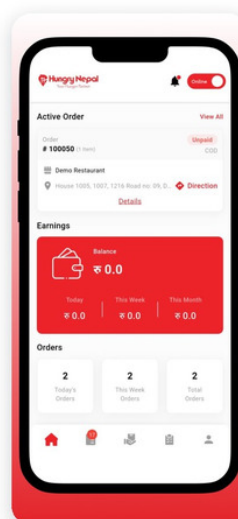

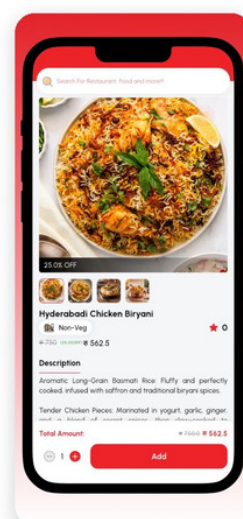

02 Hungry Nepal

FOOD DELIVERY

Customer, restaurant partner and rider apps

24/7 delivery of food, liquor and snacks across Hetauda, with an average delivery time of 30 to 60 minutes.

- Restaurant menus, cart and checkout
- Partner app for menus and incoming orders
- Rider app with job alerts and earnings
- Live order status for customers

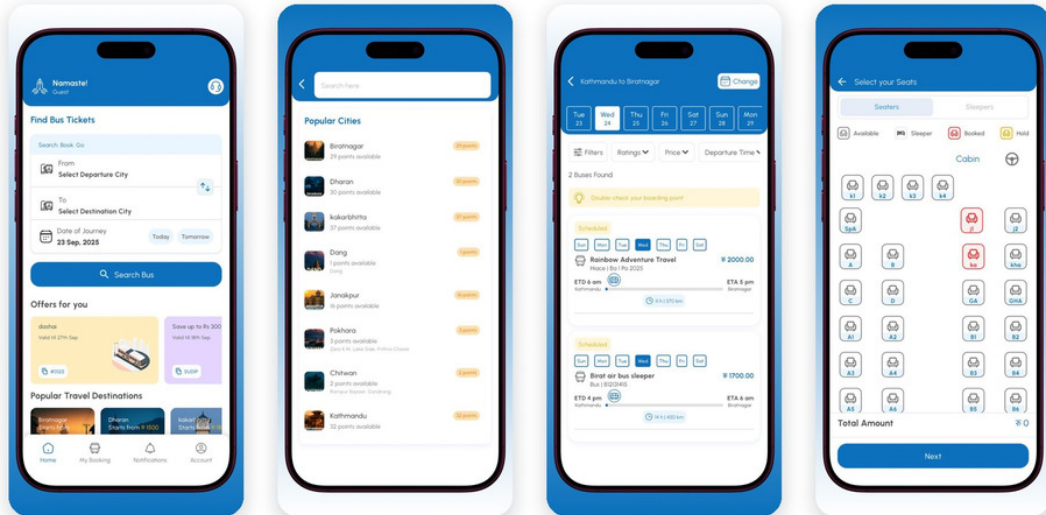

03 Mero Ticket

BUS SEAT BOOKING

iOS and Android app

Seat booking for bus, Hiace and Sumo routes across Nepal, connecting passengers with verified operators.

- Route search by date and destination
- Live seat map and seat selection
- Bus, Hiace and Sumo operators
- Digital tickets and offers

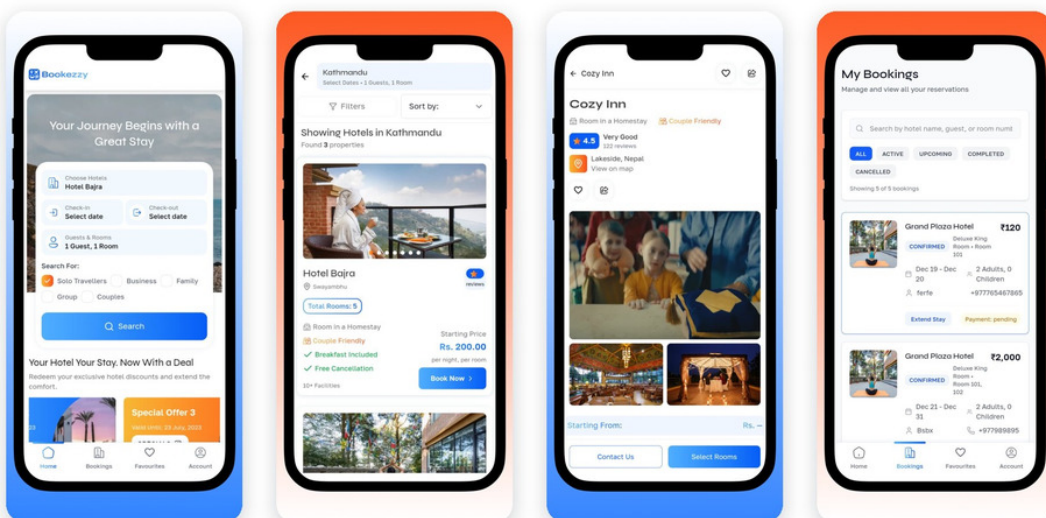

04 Bookezzy

HOTEL BOOKING

iOS and Android app

Hotel booking across Nepal, from city stays in Kathmandu to lodges on trekking routes.

- Search by destination, dates and guests
- Verified hotels with guest reviews
- Clear room prices and photos
- Instant booking confirmation

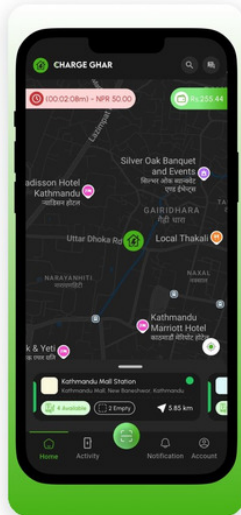

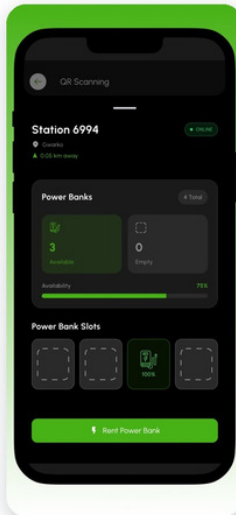

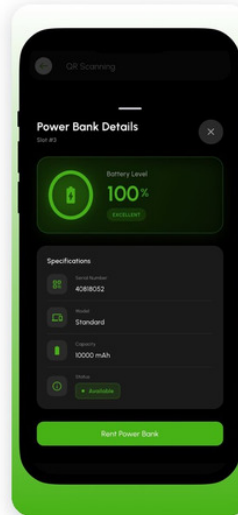

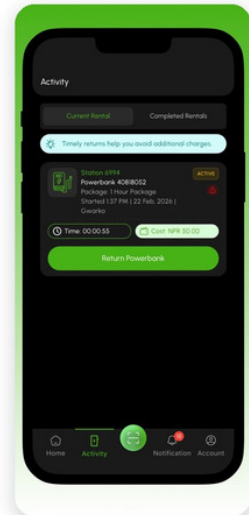

05 ChargeGhar

iOS and Android app

Nepal's power bank sharing network, with stations in cafes, malls, airports and hospitals.

POWER BANK SHARING

- Map of nearby charging stations
- Return it at any station
- Rent a charged power bank in seconds
- Wallet and rental history

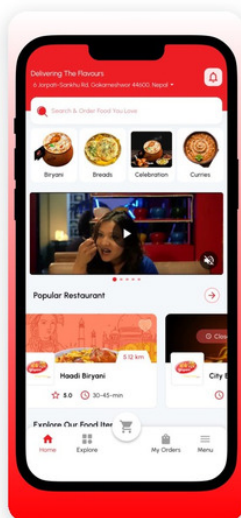

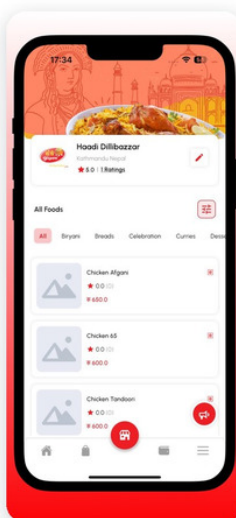

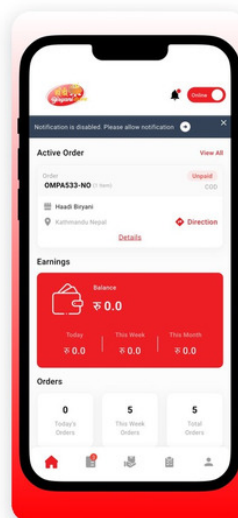

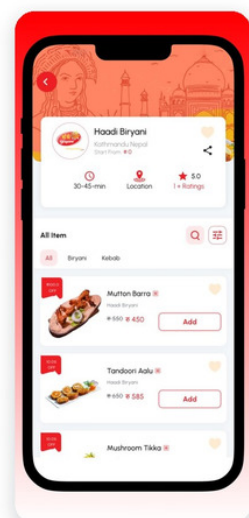

06 Haadi Biryani

Customer, kitchen partner and driver apps

Own-brand ordering for a Kathmandu biryani restaurant, covering dine-in, takeaway and delivery.

RESTAURANT ORDERING

- Menu browsing and order customisation
- Kitchen app for incoming orders
- Driver app for deliveries
- Order tracking for customers

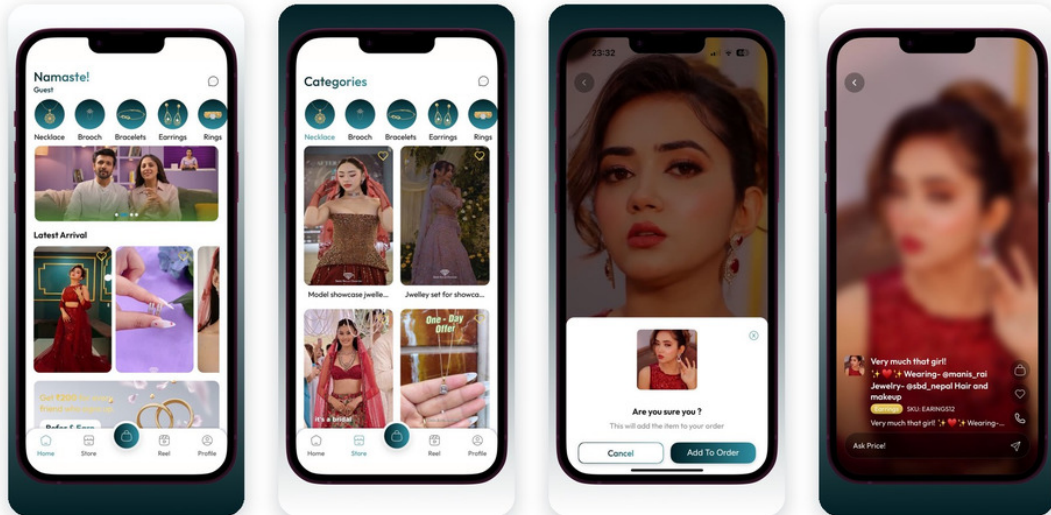

07 SBD Loyalty

JEWELLERY & LOYALTY

iOS and Android app

Shopping and loyalty app for Shree Balaji Diamonds, a fine jewellery brand with showrooms in New Road, Pulchowk and Durbar Marg.

- Jewellery catalogue by category
- Personal account and purchases
- Loyalty rewards for regular customers
- Custom jewellery requests

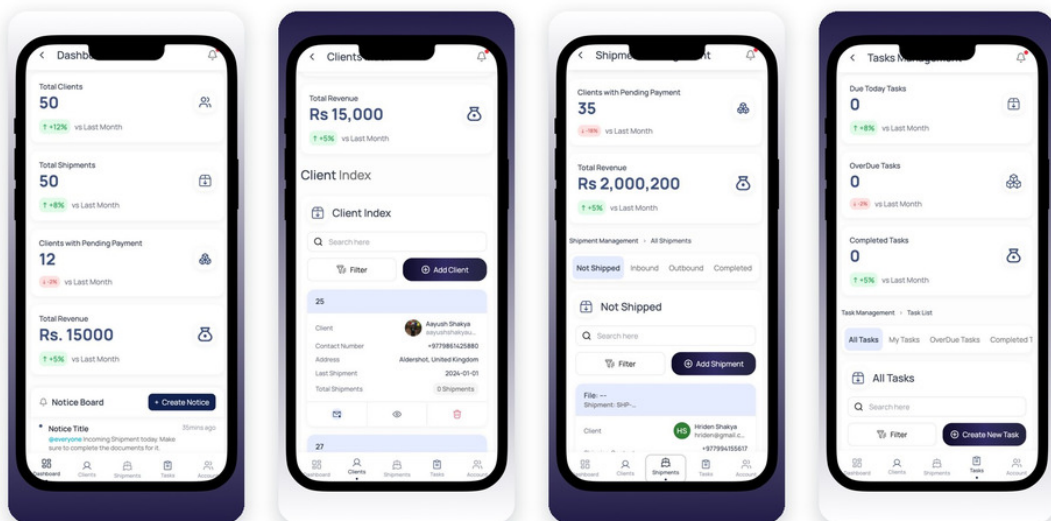

08 Orient Relo

LOGISTICS OPERATIONS

Internal iOS and Android app

Internal logistics platform that replaced emails and spreadsheets for a relocation company's operations team.

- Create and manage shipment records
- Real-time status at every milestone
- Assign team members to each job
- All shipment documents in one place

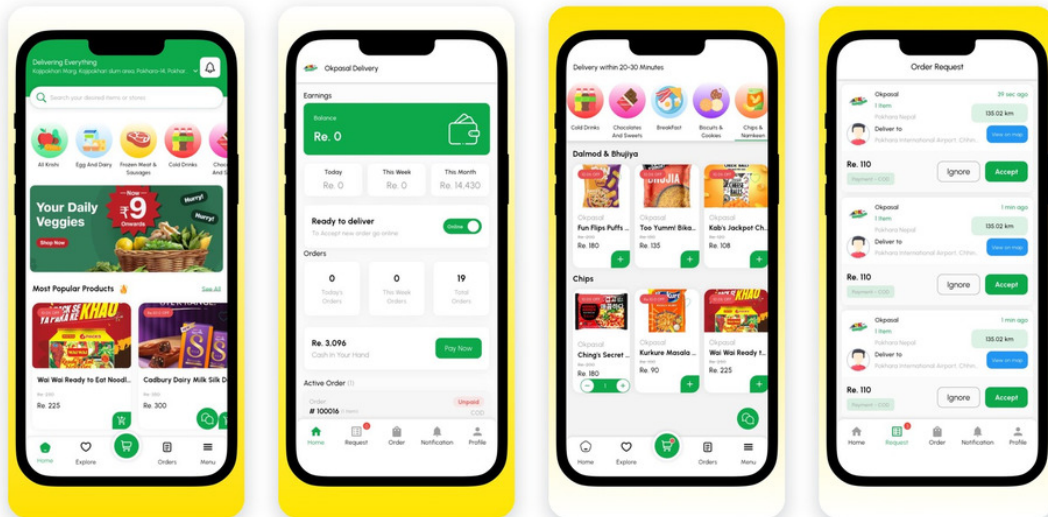

09 Ok Pasa

GROCERY E-COMMERCE

Customer and delivery apps

Groceries, daily essentials and household items delivered in Pokhara and across Nepal.

- Catalogue by category with offers
- Cart, checkout and order history
- Rider app for doorstep delivery
- Order status updates

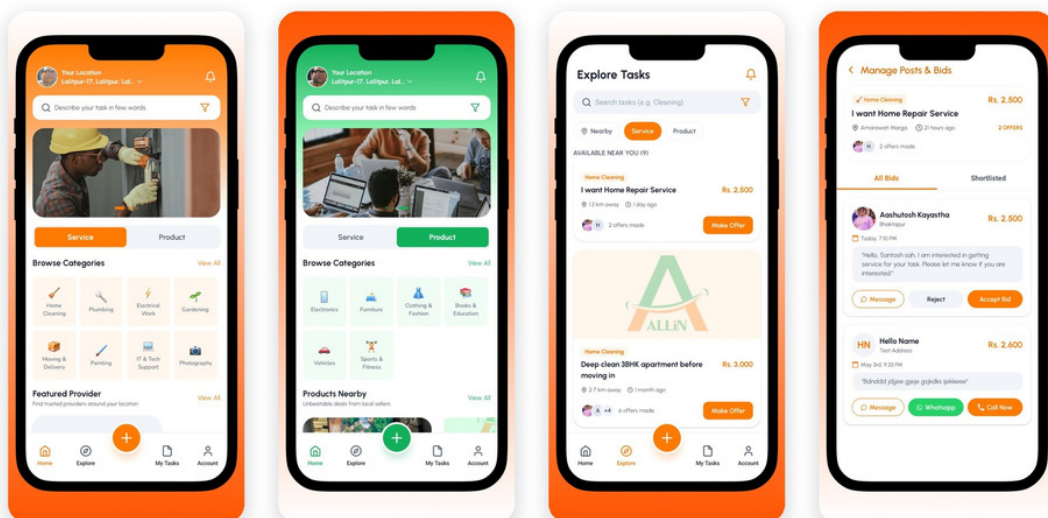

10 Allin Nepal

LOCAL MARKETPLACE

iOS and Android app

Location-based open marketplace for buying, selling, hiring and finding services nearby.

- List products, services, jobs and rentals
- Find what is available nearby
- Compare offers and agree prices
- Profiles for businesses and freelancers

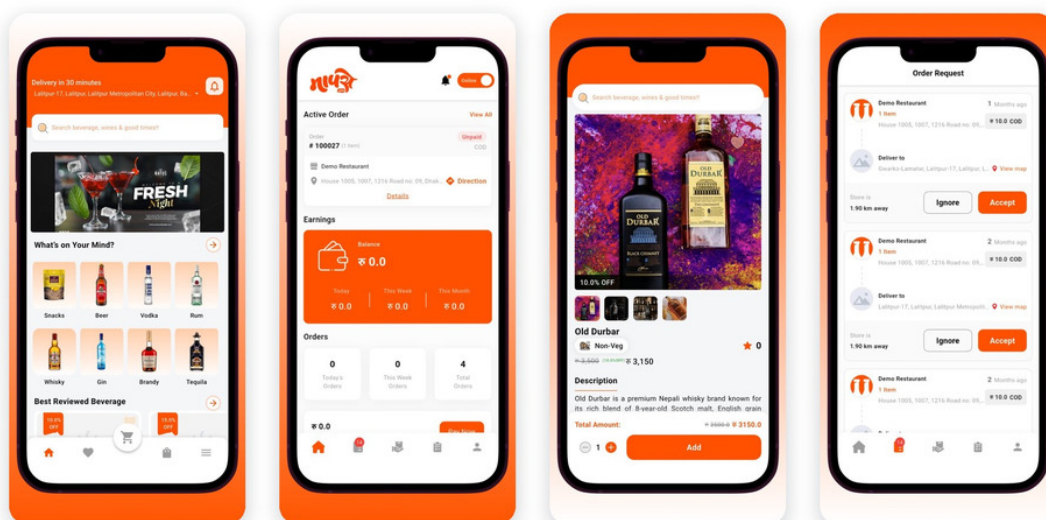

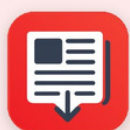

**11 Mapasey**

24/7 DELIVERY

Customer and delivery partner apps

Round-the-clock delivery of food, liquor and snacks in Pokhara, within 30 to 60 minutes.

- Restaurant and liquor store menus
- Ordering day and night
- Partner app for orders and earnings
- Live order status

**12 GistFeed**

NEWS

iOS and Android app

Bite-sized news in English and Nepali, read in a feed that scrolls like social media.

- Short stories from top sources
- English and Nepali editions
- Personalised news feed
- Share a story in one tap

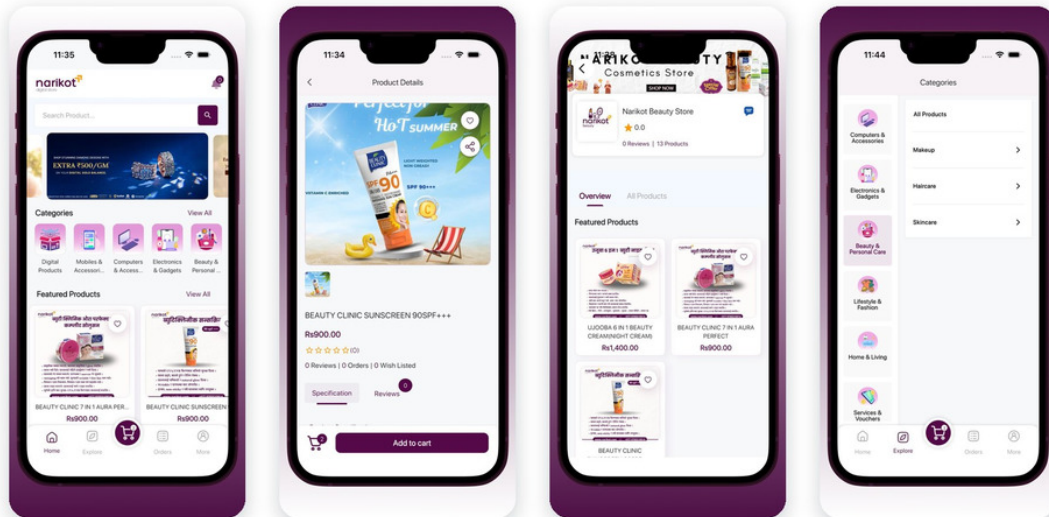

**13 Narikot**

iOS and Android app

Marketplace where verified Nepali sellers list their products in one app.

MULTI-STORE E-COMMERCE

- Many verified stores in one app
- Quality checks on sellers and products
- Fashion, electronics, home and local goods
- Secure payment and doorstep delivery

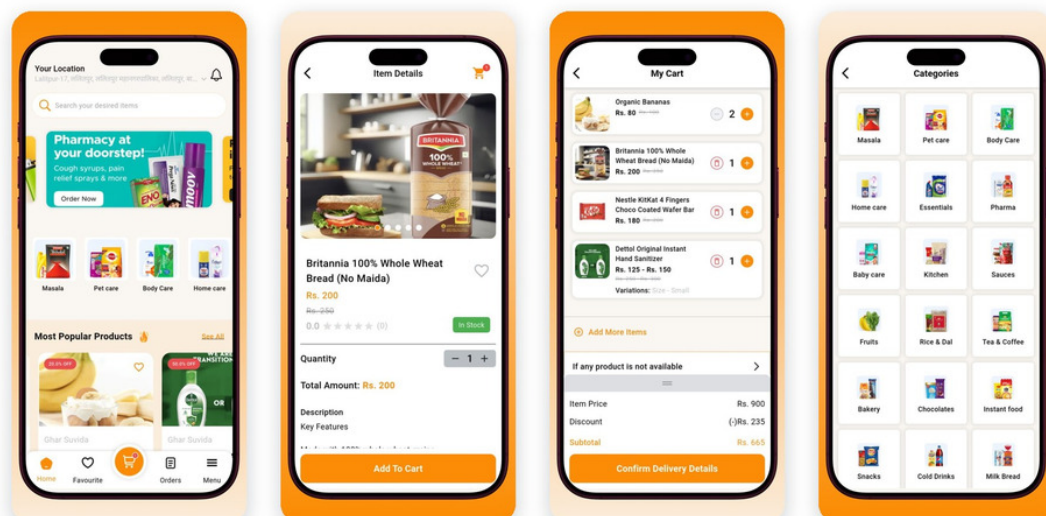

**14 Gharsuvida**

iOS and Android app

Quick commerce for Gramthan, Morang: daily essentials delivered in 30 to 45 minutes.

QUICK COMMERCE

- Groceries, personal care and household items
- Delivery in 30 to 45 minutes
- Offers, discounts and reward points
- Order tracking

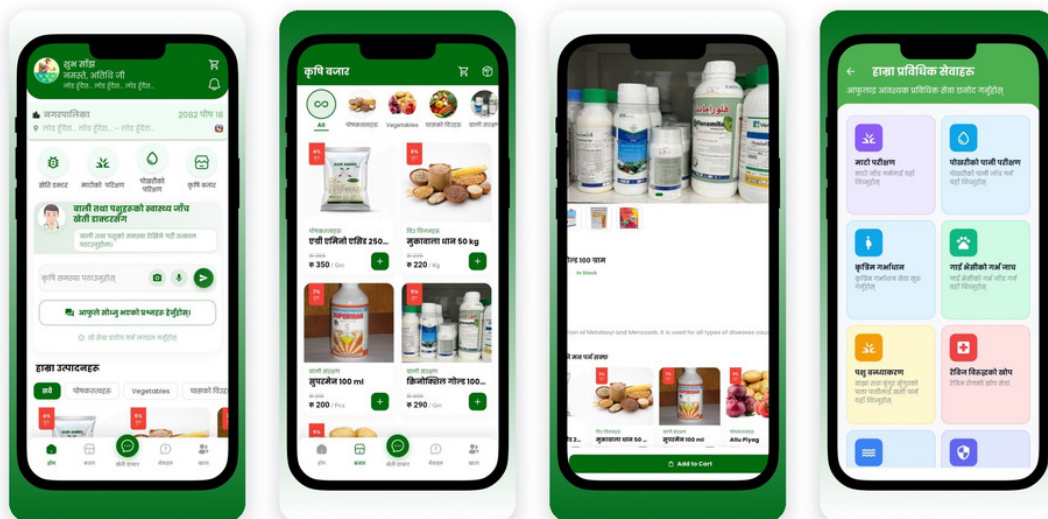

15 **Krishi Mantra**

AGRICULTURE LEARNING

iOS and Android app

Free Nepali-language app for farmers, with courses, expert support and farming services.

- Free video and text courses
- All content in Nepali
- Crop, livestock and pest guidance
- Seasonal farming advice

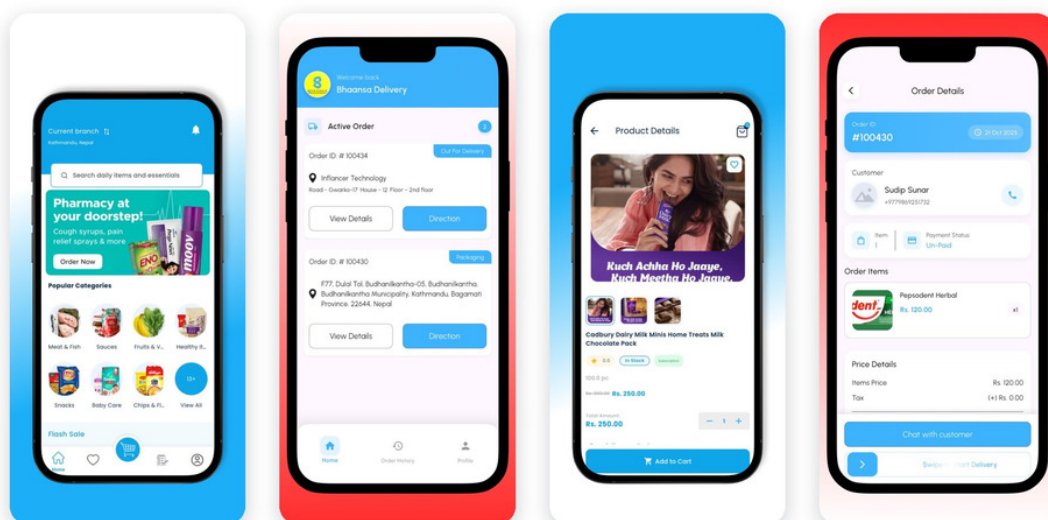

16 **Bhaansa**

GROCERY & SUPERMARKET

Customer and delivery apps

Online grocery and supermarket ordering in Nepal, with cash on delivery and Khalti payments.

- Fresh produce and daily essentials
- Delivery partner app
- Khalti and cash on delivery
- Offers and order history

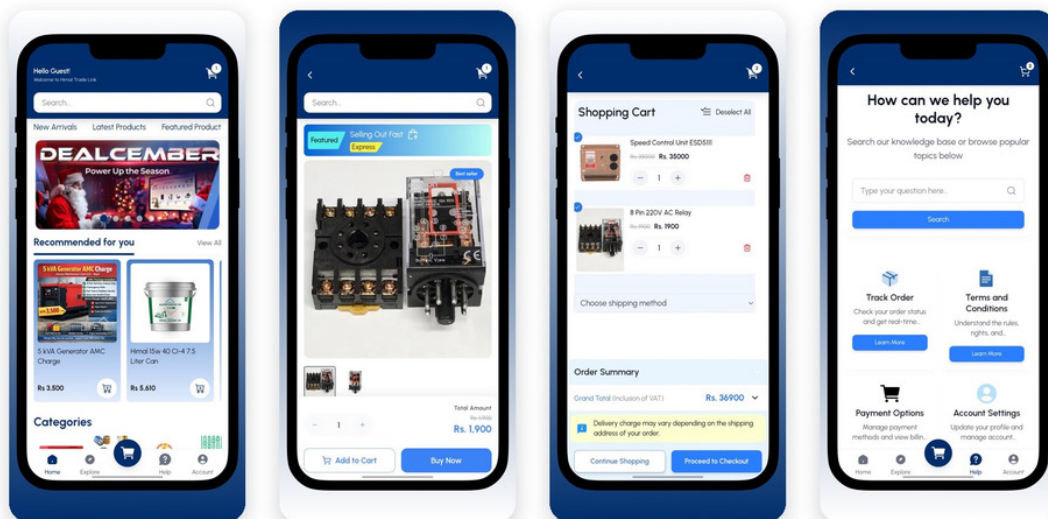

17 Himal Trade Link

INDUSTRIAL COMMERCE

iOS and Android app

Industrial products and services for generators, engines and power systems, from an engineering firm in Lalitpur.

- Generators, engines, tools and spare parts
- Product enquiries and quotes
- Book installation, repair and maintenance
- Support from experienced engineers

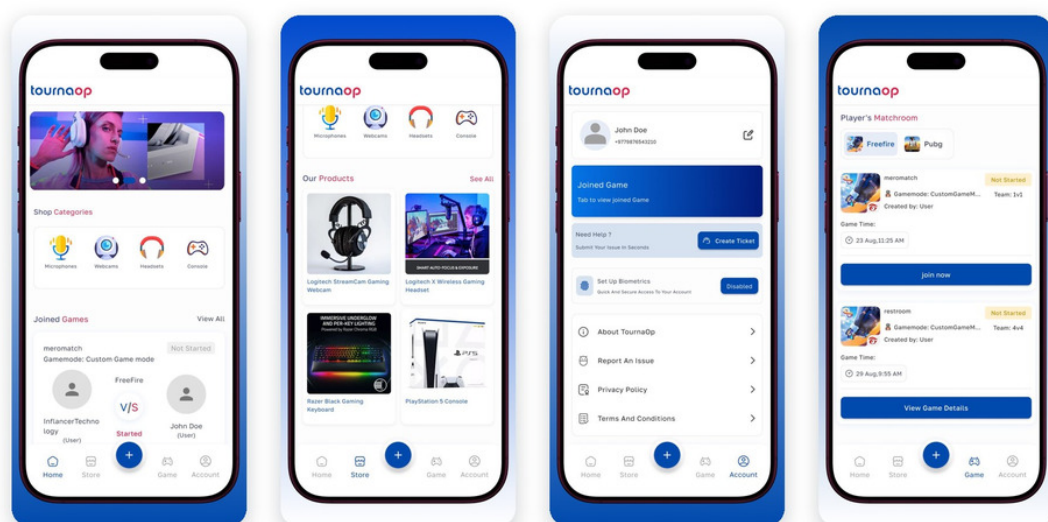

18 Tournap

GAMING STORE

iOS and Android app

Online store for gaming gear and accessories for competitive players.

- Gaming peripherals and accessories
- Cash on delivery
- Customer reviews and ratings
- In-app customer support

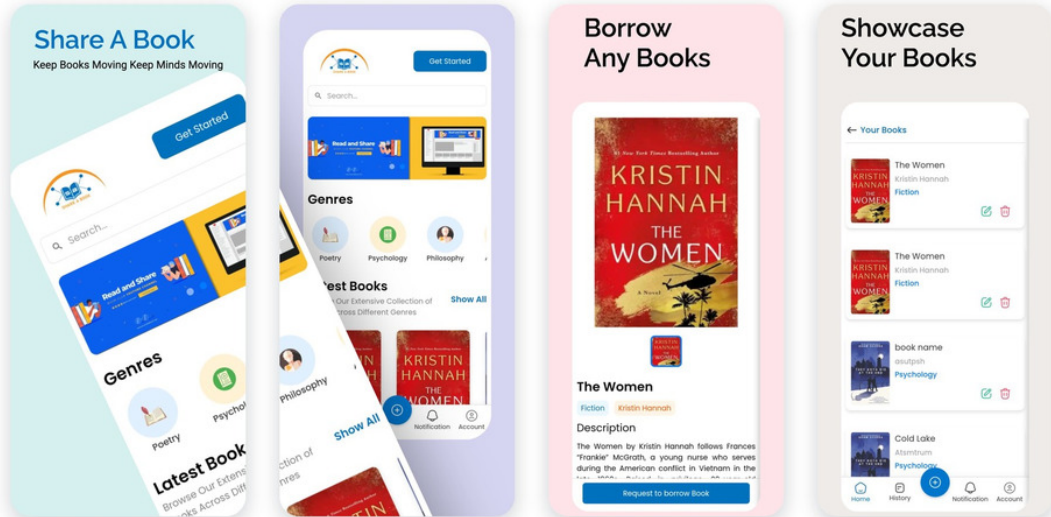

19 Share-A-Book

BOOK SHARING

iOS and Android app

Lending and borrowing community for readers in Nepal.

- Lend books from your own shelf
- Borrow from other readers
- Browse by genre and latest books
- Profiles for book lovers

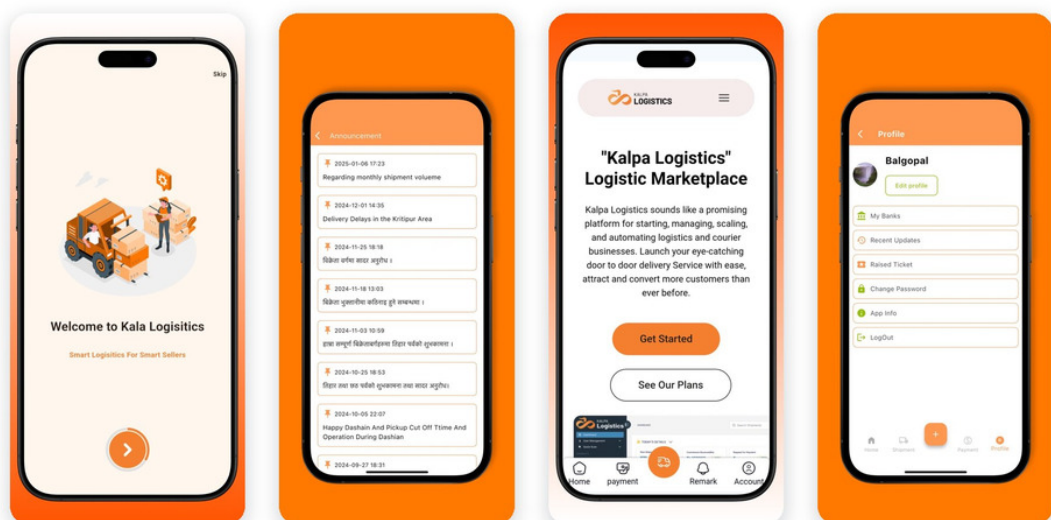

20 Kalpa Logistics

LOGISTICS MARKETPLACE

Customer and seller apps

Nepal's logistics marketplace that connects people and businesses who need to move goods with transport providers.

- Book and schedule shipments
- Seller app to manage orders and dispatch
- Shipment status at every step
- Transparent pricing per delivery
